

**CRINONE** is a vaginal gel that contains natural progesterone.

**STORAGE**

Keep refrigerated. (<25° C-DO NOT FREEZE)

**HOW TO USE CRINONE**

Crinone is applied directly from the applicator deep into the vagina.

1. Wash your hands well with soap and water
2. Remove the applicator from the sealed wrapper.
3. DO NOT remove the twist-off tab at this time.
4. Hold the applicator by the thick end. Shake down several times like a thermometer to ensure that the contents are at the thin end.
5. Hold the applicator by the flat section of the thick end. Twist off the tab at the thin end of the applicator and discard it. DO NOT squeeze the thick end while twisting off the tab. This may release gel.
6. Carefully insert the thin end of the applicator well into the vagina.
7. Squeeze the thick end of the applicator firmly to push the gel into the vagina. Remove the applicator and discard into a waste container.

**(There may be some gel left in the applicator Do not worry, you will still be receiving the correct dose.)**
